

INGLÉS 7° BÁSICO

SOLUCIONARIO GUÍA DE APRENDIZAJE REMOTO N°3

I Instrucciones:

1. A continuación se incluyen las respuestas correctas de la guía N°3
2. Revisa el trabajo que has realizado para saber cómo vas en tu proceso de aprendizaje
3. Si tienes dudas puedes escribirme a misslisettecolegioanglomaipu@gmail.com

I. Before Reading: Look for the meaning of the following words and complete the sentences with the correct vocabulary item.

keep track of link network pattern temperature

1. The temperature on Mars is much lower than on Earth.
2. A network connects all the computers in a computer lab.
3. Some people use the calendar in their phone to Keep track of their appointments.
4. Some people prefer a striped pattern on their walls; others prefer plain walls instead.
5. You can link your computer with the Internet using a cable, or you can connect wirelessly.

II. Brainstorm. List some technologies that make life easier or more fun today than in the past. (Answers may vary since they are personal)

Technologies That Make Life Easier

high-speed trains

Smarphones

Intelligent vaccum cleaners

Technologies That Make Life More Fun

3-D movies

Smart TVs

Social networks

IV. Identifying main ideas: Look back at the reading and match each main idea below to a corresponding paragraph (A-H)

- E** 1. An electronic system called “ambient intelligence” will control an entire house.
- C** 2. RFID technology will allow parts of the house to communicate with us.
- D** 3. OLED screens will change the way your walls look.
- H** 4. Intelligent homes may be a part of our everyday life within 30 years.
- G** 5. Robots that act like humans will do housework and take care of people.

V. Identifying key details: Read each statement below. Then circle T for true and F for false, according to the reading. Correct the false statements.

Appliances That Talk

1. Someday, kitchen cabinets will tell you it’s time to buy more food. **T** **F**
2. RFID chips are already used today for keeping track of children. **T** **F**

Houses That Think

3. People will change their wall patterns using RFID technology. **T** **F**
4. Darkening windows at night is an example of ambient intelligence. **T** **F**

Robots That Feel?

5. Scientists are building robots that can help take care of elderly people. **T** **F**
6. Robots will soon be more intelligent and sociable than humans. **T** **F**

False statements corrected:

2. RFID chips are already used today for keeping track of pets and farm animals

3. People will change their wall patterns using OLED tecnologia

6. Robots will be similar to humans

VI. Building Vocabulary: Find the words **in bold** below, in the reading. Read the words around them and try to guess their meanings. Then match the sentence parts below to make definitions.

- E 1. If things **adapt to** you,
- D 2. You use "**entire**"
- B 3. You say "**for instance**"
- A 4. If you **suggest** something,
- C 5. If something has **intelligence**,

- a. you tell people what you think they should do.
- b. to give an example.
- c. it can understand and learn things.
- d. to describe all of something.
- e. they change in order to deal with you.

VII. Critical Thinking. Answer the following questions related to the text you read. **(Personal opinions depending on their own thinking and feelings about the text)**

1. Does the author of the text seem **positive (optimistic)** or **negative (pessimistic)** about the future? Justify your answer.
-

2. Look for words and phrases the writer uses to describe the scene in the opening paragraph. Does the description make life sound pleasant or unpleasant?
-

3. Look at how the writer describes appliances, houses, and robots. Does the writer make these devices sound practical (useful) or impractical (not useful)?
-

4. Do you agree with the writer's attitude about the future? Why, or why not?
-

VIII. We often use “will” for future predictions when we use the word “probably”.

For each of the situations below, predict something that will probably happen or something that will probably not happen.

Answers may vary in this activity since you can invent any idea related

Ex. Bob is going to take his driver’s test tomorrow. He didn’t practice.

He’ll probably fail. or He probably won’t pass.

1. It’s raining. George doesn’t have an umbrella. He will probably get wet
2. Andy has a very bad cold. He will probably feel bad
3. Nora didn’t sleep well last night. She will probably feel asleep today
4. Phil loves movies. There is a new movie playing at the theater tonight. He will probably go to see it
5. Jan ate too much dessert last night and now she has a stomachache. She will probably eat Little today

IX. Imagine a typical day in 2050. What will it be like? Brainstorm some ideas about your typical day. Use these categories to write your predictions about the future.

Personal answers can vary depending on each person

My home	Ex: I will have a robot house keeper
Study	Ex: I will study languages online with people all around the world
Work	Ex: I will work online making virtual lessons
Family	Ex: I will communicate with my family by social networks
Travel	Ex: I will travel virtually to faraway places
Music	Ex: I will have a very small gadget in my ear to listen to music
Movies	Ex: I will watch 5d movies at home
